

VIA Rail Renaissance Coach

Thank you for downloading the “VIA Rail Renaissance Coach” repaint!

Below are instructions on how to install the file into your Train Simulator Classic game.

INCLUDED REPAINTS:

VIA Renaissance Coach

VIA Renaissance Sleeper

REQUIREMENTS:

Since this pack is a repaint of the British Mark III HST coach, you will require the “European Loco & Asset Pack” which can be purchased from steam for \$19.99. It is also bundled in many European routes, so check your directory to see if you already have it.

VIA Rail Renaissance Coach

INSTALLATION:

Step 1:

Unzip this file to your desktop (or any other temporary location).

Step 2:

Move the folder titled "Renaissance" to the following directory: RailWorks/Assets/Kuju/Rail-Simulator/RailVehicles/Diesel/HST

Step 3:

Go to the following folder: RailWorks/Assets/Kuju/RailSimulator/RailVehicles/Diesel/HST/Default/Mk3TFO and copy the "mk3tfo_ic.GeoPcDx" file.

Step 4:

Go to the newly copied RailWorks/Assets/Kuju/RailSimulator/RailVehicles/Diesel/HST/Renaissance/Mk3TFO folder and paste it there.

Step 5:

Test it out in Train Simulator. It will appear under the name "VIA Renaissance Coach".

Step 6:

Everything should work, go and have some fun!

CREDITS:

Original Mark III coach car by "Kuju".
Renaissance scheme repaint by "traindude80".

DISCLAIMER:

This pack has been thoroughly tested on my own computer and works fine. However, in an unfortunate scenario, I cannot be held responsible for any damages to your computer. If you have any issues installing the file or would like to report an error, please contact me at "traindude80@gmail.com".

This is a perpetually free repaint and MAY NOT be resold for money in any way whatsoever.

I am working on the Renaissance Diner and plan to release it when it is finished!
