

# **GeorgeBeany Simulation**

## **West Coast Railway Company**

### **LMS Jubilee 5XP**

#### **45690 'Leander' Modern Reskin**

## **Description**

This reskin represents LMS Jubilee 5XP 45690 'Leander' in its modern 2023 livery with white surrounds on the numberplate on the front on the loco, the Carnforth shed name on the buffer beam and modern OHLE flashes along the loco itself.

In 2024, 45690 will be heading out of service as its current boiler ticket is due to end, this reskin is to celebrate its past 10 years running on the mainline and heritage lines.

## **Requirements:**

# Precision Locomotive Developments

(Originally Bossman Games) :

LMS Jubilee 5XP

## **How to Install:**

1. Extract the downloaded file
2. Copy the Assets folder into your usual Railworks directory
3. Open the assets folder and open up the .bat file at the bottom called '45690 Install'
4. Once that is complete it should be installed

## **Notes:**

This pack only includes the loco reskin at the moment, a reskin for the tender to fit the loco is not added (Instead use the BR Black Late Riveted Tender that comes with the pack)

The loco does not spawn as 45690 'Leander', this means you can customise the loco to your liking!
