

# On Track Simulation

Hello and thank you for downloading this add-on: Harrogate Loop V2.3

Version 2.3 brings approximately 73 miles of route explore between: York and Milford Junction, Church Fenton to Leeds and Micklefield to Gascoigne Wood. Along with this a full new range of scenarios have been created including reworked Quick Drives.

  
The Harrogate Loop

## **CONTENTS**

- 1. Information**
- 2. What is included.**
- 3. Route Requirements.**
- 4. Scenario Requirements & Details**
- 5. Installation Process**
- 6. Bits and Bobs**
- 7. Credits and Acknowledgements**

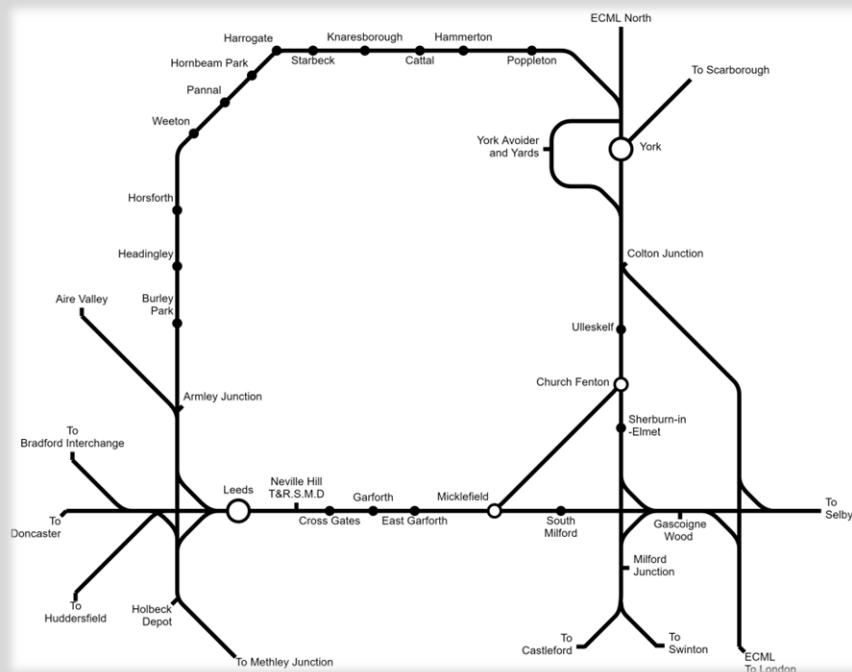

# 1. Information.

On the 24<sup>th</sup> December 2017, after a painstaking amount of time in development, Harrogate Loop was released. This was part of the 12 days of Christmas content output with Vulcan Productions. Since then not a lot had happened with the route itself, but in May 2020 we were approached by Lewis Cox (Creator of Midland Railway Butterley Route also available from On Track Simulation) with his private work on the South of York section of the route around the Church Fenton area and future plans. He very kindly offered to add this work onto the main copy of Harrogate Loop which we cannot thank him enough for and are extremely pleased to be working alongside him. The work Lewis has put into the second instalment gives you new scenery to explore from York to Milford Junction, Church Fenton to Leeds and Micklefield to Gascoigne Wood. This offers a range of new freight and passenger opportunities across the route.

Lewis has a keen eye for detail which has been reflected on this instalment of the route. A new batch of scenarios have been created by the On Track Simulation team offering users many more hours of enjoyment across both V1 and V2 sections. Lewis is already planning on the third version which will fill in the missing scenery to Selby from Gascoigne Wood and also add the run via the ECML.

The original dream has finally been realised for this route - meaning that now we can run the full Circular section of the Scarborough Spa Express (SSE). It may have taken us almost the same amount of time as the Rail Simulator / Train Simulator game has been with us (about 10 years!!) but it is a real sense of achievement to be able to finally do this! *Scarborough When?*

A map below shows the major points of interest which have scenery in this latest version of the route.

  
The Harrogate Loop

## 2. What's included.

This pack contains the routes between Leeds - Harrogate - York, York - Milford Junction, Church Fenton - Leeds and Micklefield to Gascoigne Wood.

30 Standard Scenarios are provided with the route.

4 Free Roams.

Quick Drive Ready.

Below are a selection of screen shots highlighting various route locations, stations and depots.  
(Some screenshots below may depict the route in its WIP state)

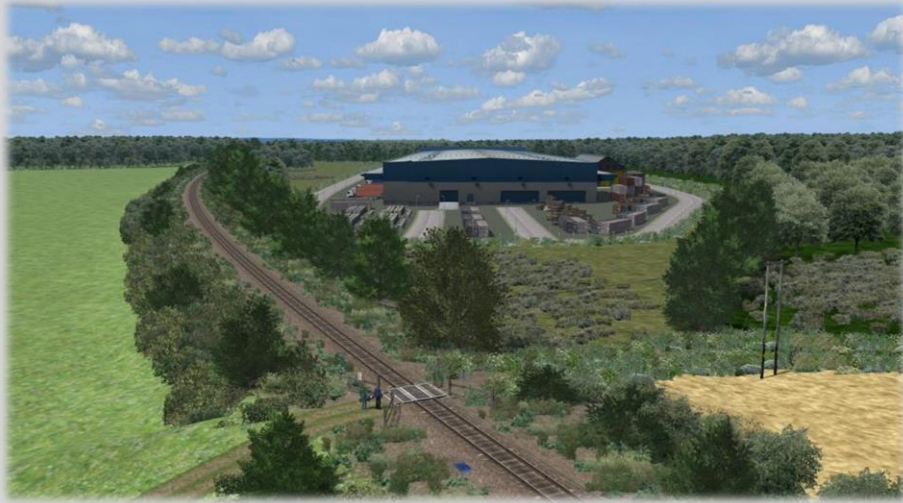

York

Between Poppleton and Hammerton

Between Cattal and Knaresborough

Knaresborough Viaduct

  
The Harrogate Loop

Harrogate

Crimple Viaduct

Arthington Viaduct

  
The Harrogate Loop

Horsforth

Whitehall Junction

Holbeck Shed

  
The Harrogate Loop

Leeds

Neville Hill Depot

York Small Model Engineers Club

Askham Bar

Copmanthorpe

Colton Junction

  
The Harrogate Loop

River Wharf

Ulleskelf Station

Church Fenton Station

Sherbern in Elmet

Milford Junction

Monk Fryston

Gascoigne Wood

Cross Gates Station

Garforth Station

East Garforth Station

Micklefield Station

  
The Harrogate Loop

South Milford Station

## 3. Route Requirements

### **4 Aspect Simulations**

[Railway Signage Pack](#)

### **Alan Thomson Sim**

[Fuller Sim VMS Signal Pack](#)

### **Armstrong Powerhouse**

[Wherry Lines: Norwich to Great Yarmouth & Lowestoft Route 2.0](#)

(We cannot guarantee the Steam Store version will work)

Users who owned Wherry Lines before March 28<sup>th</sup> 2022 will also need to purchase the upgrade pack.

[Wherry Lines: Norwich to Great Yarmouth & Lowestoft Route 2.0 Upgrade](#)

### **Just Trains**

Common Library: We recommend using the CL from the [MML Sheffield - Derby Route](#) or [South Western Expressways - Reading Route](#)

### **Steam Store**

**Class 67 & DVT Sound Fix**

Included within the route package are two files to ensure the correct working of the 67 and DVT for the scenario: ***1Z05/1Z06 10:27 Alfreton - York - Alfreton (Hellers Toy)***. These are run automatically by the installer.

### **Quick Drives**

DPSimulation have provided a selection of Quick Drive options fully loaded with accurate AI. To take full effect of these set ups the complete requirements list is below. However, if you are missing a specific item they will still load up without any errors. Please note there is a possibility of receiving an AI Collision around the Leeds area due to very high traffic. To fix this simply restart Train Simulator and reload.

[Class 325 Branding Pack](#)

**0Z99 York Parcel Sidings - Leeds (Direct Line)**

**Traction:** 37422

**Duration:** 40 Minutes

**Description:** Cold start 37422 at York Parcel Sidings on a cold misty February morning before heading light engine to Leeds.

---

**1Q61 1536 Barlby Loops - Gascoigne Wood Down Loop**

**Traction:** 37025 & 37099

**Duration:** 30 Minutes

**Description:** Test Train Time! Take 1Q61 from Milford Down Loop to Gascoigne Wood Down Loop via Church Fenton.

---

**1Q64 Derby R.T.C - Neville Hill T&R.S.M.D**

**Traction:** 37521 & 37421

**Duration:** 25 Minutes

**Description:** Good evening driver, your train has just arrived at York Platform 4 after the run in from Scarborough. You are currently held at signal Y236 for a TPE service which is currently picking up passengers. Once you receive the road you may proceed. This working is bound for Neville Hill. You will work the train to the south of Milford Junction. This scenario will automatically end its self when you drive over the Monk Fryston Marker displayed on your HUD. Max speed is 60mph.

---

**1S04 07:00 London Kings Cross to Edinburgh**

**Traction:** 43367 & 43320

**Duration:** 25 Minutes

**Description:** Take 1S04 on a diverted ECML express service from Milford Junction up to York. Take 1S04 on a diverted ECML express service from Milford Junction up to York. Take 1S04 on a diverted ECML express service from Milford Junction up to York. Take 1S04 on a diverted ECML express service from Milford Junction up to York.

---

**1S07 08:50 Doncaster to Edinburgh (Direct Line)**

**Traction:** 67022, 91103 & 82225

**Duration:** 30 Minutes

**Description:** Take control of 67022 at the head of a 225 set, dragging the service between Leeds and York. Due to engineering works this weekend all ECML services are being diverted along the Leeds Direct Line.

---

**1Z05/1Z06 10:27 Alfreton - York - Alfreton (Hellers Toy)**

**Traction:** 67029 & 82146

**Duration:** 120 Minutes

**Description:** Take the EWS company train through the Yorkshire countryside on the Harrogate circular on corporate trip.

## The Harrogate Loop

### 1Z17 Glasgow Central - Harrogate 'Northern Belle'

**Traction:** 47790 & 47501

**Duration:** 80 Minutes

**Description:** Its almost Lunch time on todays Northern Belle. You are bound for Harrogate with this train. Your first task is to load up after change ends for the run along to Harrogate

---

### 1Z23 17:15 'The Scarborough Spa Express' Scarborough to Carnforth

**Traction:** 37516 & 37685

**Duration:** 35 Minutes

**Description:** Take control of 37516 and 37685 on a return leg of the Scarborough Spa Express back in 2016

---

### 1Z35 'The Yorkshireman' 0636 Ealing Broadway to York

**Traction:** 60009 'Union of South Africa'

**Duration:** 30 Minutes

**Description:** Take control of 60009 'Union of South Africa', on one of her final planned public outings, with the final portion of this Northbound railtour from Milford Junction up to York station.

---

### 2G11 York - Knaresborough

**Traction:** 142062

**Duration:** 30 Minutes

**Description:** Today you are in charge of 2G11 one of the sunday only services that runs from York to Knaresborough

---

### 2R04 Hull - York

**Traction:** 150205

**Duration:** 20 Minutes

**Description:** Take control of 2R04 from Gascoigne Wood Junction to York. You have 150205 as your workhorse for this run. You will call at Sherbern in Elmet, Church Fenton and York

---

### 2R14 1450 Hull - York

**Traction:** 150223

**Duration:** 30 Minutes

**Description:** Take control of one of the few Hull services that calls at Ulleskelf with an afternoon York bound stopper from Gascoigne Junction.

---

### 2R20 19:16 Hull - York

**Traction:** 150109

**Duration:** 25 Minutes

**Description:** Join the ex-West Midlands Railway interloper, 150109, on the final leg of a Hull to York evening stopper. You will join this service on the move just outside Gascoigne Wood.

---

**2T03 09:15 York to Leeds (Direct Line)**

**Traction:** 170458

**Duration:** 45 Minutes

**Description:** With the Harrogate Loop not fully operational due to engineering works take one of Northern's new Class 170 sets on a rare Direct Line stopper.

---

**2T19 14:24 Leeds to York (Direct Line)**

**Traction:** 150205

**Duration:** 35 Minutes

**Description:** Drive a stopping service along the Leeds Direct Line on a glorious summer afternoon.

---

**2T32 21:19 York to Leeds (Direct Line)**

**Traction:** 158868

**Duration:** 45 Minutes

**Description:** In the twilight of a fine August evening take control of the last Northern service of the day along the Direct Line.

---

**2T94 18:08 York to Leeds (Direct Line)**

**Traction:** 158871 & 158759

**Duration:** 40 Minutes

**Description:** Friday evening peak is often thought of as the busiest time of week on the railways, so naturally that would be the worst time for signalling related failures, which is unfortunately precisely what has occurred this evening once again between Poppleton and Knaresbrough. As such, all lines are blocked between Poppleton and Knaresborough resulting in the cancellation of 2C63 (the 18:11 from York to Leeds via Harrogate). To compensate for the displaced units and in anticipation of a quick or temporary fix, the unit originally scheduled for 2C63 (158759) is to be attached onto the back of 158871 to form a lengthened 2T94 (the 18:08 from York to Leeds via Micklefield) calling at Ulleskelf, Micklefield, Garforth and Leeds. Enjoy!

---

**2Y89 York - Sheffield**

**Traction:** 144005

**Duration:** 20 Minutes

**Description:** Good afternoon driver, please open your doors to allow the passengers to board this 13:13 service to Sheffield. You will call at Ulleskelf, Church Fenton and Sherbern in Elmet. This scenario will end automatically when you travel over the Monk Fryston marker just south of Milford Junction.

---

**4N45 07:30 Drax AES to Tyne Coal Terminal**

**Traction:** 66774

**Duration:** 30 Minutes

**Description:** Join a very late running 4N45 at Milford Junction, taking control of 66774 up to York Yard.

---

**5S03/1S03 06:29 Neville Hill to Leeds/Leeds to Aberdeen (Direct Line)**

**Traction:** 43208 & 43206

**Duration:** 65 Minutes

**Description:** Take a Virgin Trains East Coast HST into service from Neville Hill Depot, then drive the first leg of the Aberdeen bound service between Leeds and York. (Note this scenario has a 25-minute wait at Leeds station, you may wish to go make a brew during this time or have Async Keys enabled)

---

**5V46/1V46 Crofton Depot to York/York to Plymouth (Direct Line)**

**Traction:** 221103

**Duration:** 75 Minutes

**Description:** Take charge of an empty stock move up to York before bringing the train into service and then running to Leeds. Note: This scenario has a half hour wait at York so you may wish to enable Async Keys.

---

**6E97 New Biggin British Gypsum - Tees Dock BSC Export Berth**

**Traction:** 66097

**Duration:** 45 Minutes

**Description:** Good afternoon driver, you find yourself waiting for your train to arrive for a change over at Milford Down Sidings Reception. Please await the loco to fully stop before clicking on it to take charge. Your not to depart Milford until 14:39 so please get yourself ready in the meantime. Your maximum permitted speed is 60mph. This scenario will also automatically end when you drive over the Nether Poppleton Down Slow Marker just north of Skelton Junction.

---

**6M16 Wilton EFW Terminal - Knowsley Freight Terminal**

**Traction:** 66043

**Duration:** 30 Minutes

**Description:** Good morning driver, please set up your cab and get yourself moving right away. You are working 6M16 which is bound knowsley Freight Terminal. You will take this train as far as Milford Junction Up Loop where another driver is due to take over. Your maximum permitted speed throughout is 60mph.

---

**6N80 Scunthorpe B.S.C (ENT.C) - Lackenby (B.S.C)**

**Traction:** 66148

**Duration:** 35 Minutes

**Description:** You are currently waiting at Signal GW1836 for a passenger service to pass through. Set up your cab whilst you wait and once you have the road take your train north towards Skelton Junction.

---

**6T74 Belmont Down Yard - Harrogate**

**Traction:** 66085

**Duration:** 55 Minutes

**Description:** 6T74 Belmont Down Yard - Harrogate (V1 Legacy Scenario)

---

**6Z20 York Thrall Europa - Scunthorpe Tent T.C**

**Traction:** 37422

**Duration:** 60 Minutes

**Description:** Drive 37422 working 6Z20 as far as Monk Fryston

---

**6Z55 Milford West Sidings - Neville Hill Up Sidings**

**Traction:** D9009 & 66082

**Duration:** 20 Minutes

**Description:** 6Z55 Milford West Sidings - Neville Hill Up Sidings

---

**Merry-Go-Round (1996) – SCENARIO CURRENTLY REMOVED DUE TO ERRORS**

**Traction:** 56083

**Duration:** 100 Minutes

**Description:** It's a balmy summer's evening and you're aboard 56083 as it works the Lynemouth-Milford MGR circuit. You will drive from York North to Milford with a rake of empty wagons, before returning with a fully loaded rake of 36 HAA's to keep Lynemouth operating!

---

**2C59 1744 York to Leeds**

**Traction:** 150205

**Duration:** 80 Minutes

**Description:** Begin by cold starting 150205 in preparation for the evening peak extra 17:44 service from York to Leeds via Harrogate. You will then call at all stations to Horsforth then Leeds only. The semaphores of the Harrogate Loop are showing their age so it may not transpire to be a leisurely stroll out in the North Yorkshire countryside and West Yorkshire cityscape as expected

---

**The Scarborough Spa Express (2008)**

**Traction:** 45407 'The Lancashire Fusilier'

**Duration:** 200 Minutes

**Description:** Drive 45407 'The Lancashire Fusilier' on 'The Scarborough Spa Express' from York to York via Harrogate, Leeds and Church Fenton in July 2008. This working was Jim Nobbs original inspiration for the Harrogate Loop route!

---

## 5. Installation Process

- Open up the folder named Harrogate Loop V2.2
- Check you have the requirements listed prior to installing.
- Run the installer provided.
- Check you have the scenario requirements before loading them up
- If you have followed the above instructions you should be good to go!

## 6. Bits and Bobs

### **Super Elevation:**

Currently the route does not feature Super Elevated curves, this would involve the track being re-laid across the Direct Line and was sadly not something we had thought to do before commencing work on this project. We will look at how viable it is to add this in for a future version, though sadly it does seem unlikely.

### **Selby:**

Selby is not included in this version with any scenery. There are about 5 miles of track still to be worked on to add Selby in, unfortunately Lewis simply did not have time to do this for the V2 release due to returning to real life commitments. We are aiming to add Selby in as a V2.5 update, hopefully later this year.

### **Harrogate Loop Revamp:**

Tom has done some fantastic work revamping the original Harrogate Loop between York and Starbeck for this release. Due to his various commitments he has not had time to do the full loop revamp for this release, however we will look to continue the revamp in the next version of release.

### **Performance:**

We are aware of significant performance drops at both Leeds and York, we have done our best to try and thin unnecessary scenery out in these areas however ultimately they are large network areas and TS struggles with them. We have tried to build in an economical manner across the route whilst also creating a detailed and realistic representation of the real line. If you have a lower end PC you may need to reduce some settings to run the route smoothly.

### **1Z05/1Z06 10:27 Alfreton - York - Alfreton (Hellers Toy) Scenario**

This scenario uses a significant amount of RAM when loading up, you may experience a crash to desktop dependant on your PC Specs. We recommend that if you do experience a crash that you should try and lower some of your settings. Another way we have found with testing to load this scenario up is to load another scenario up first. Then give it a short run for about a mile, then exit and reattempt to load **1Z05/1Z06 10:27 Alfreton - York - Alfreton (Hellers Toy)**

## 7. Credits & Acknowledgements

This route simply would not be at the stage it is today without the help of all the listed people below. Everyone listed has played an important part over the development of the original TPR project before the network was stripped back to what we have now.

Benedict Cooper - Asset Creation & Route Tweaking  
Callum Green - Asset Creation  
Darren Porter - Quick Drive creation & Assets  
Jack Hales - Batch File creation for the Class 67 & DVT Sound Fix, Installer & Testing  
Jim Nobbs - Original Route Founder and all things technical  
Joshua Bridge - Scenarios & Testing  
Joshua Lake - Testing  
Lewis Cox - Route creation, Asset Creation, Scenarios & Testing  
Mark Walker - Scenery & Scenarios  
Matthew Cox - Scenarios & Testing  
Matthew Wilson - Track Tweaks and Manual Logo for Harrogate Loop  
Original TPR Team - Assets & Scenery  
Sean Harris - Testing  
Thomas Harrison - Version 1&2 Route creation, scenarios & testing  
Vulcan Productions Team - Original Route hosting & Testing for V1
